19<sup>th</sup> July, 2017.

**Reference:** : 1. REACH Regulation EC1907/2006  
2. EU Regulation 2011/65/EU RoHS, including EU Directive 2015/863 which amends Annex II of EU Regulation 2011/65/EU. Also incorporating EU Regulations 2002/95,2003/11, and 2005/59.

**Product:** All products manufactured by Taconic International Limited.

Dear Sir/Madame,

All products manufactured by Taconic International Limited, and supplied to our customers, are defined as articles under the REACH regulations. No substances are intentionally released as a result of using our articles in accordance to recommended specifications. We are considered by the above referenced legislation to be downstream users of substances.

As a consequence, we have been in contact with all our suppliers to ensure that they have evaluated products supplied to us with REACH in order to ensure that there is no uninterrupted supply to our production process.

The list of pre-registered substances has been available on the 1<sup>st</sup> January, 2009 via the ECHA website. We have checked that all substances used in our preparations and articles are registered with ECHA.

We have studied all the 174 substances in the Candidate List of Substances of Very High Concern(SVHC) for authorisation which has been updated on the ECHA website on the 7<sup>th</sup> July, 2017, in accordance with Article 59(10) of REACH. We can confirm to you that *none* of the substances on this list are utilised by Taconic International Limited and subsequently are *not* in any products manufactured by the company or supplied to any customers.
