

Product Specification **A05SK**

Taconic's A05SK is a 5 thou thick, skived, virgin PTFE product with silicone adhesive, and yellow corrugated liner. Mainly used as a high temperature release material in the automotive, aerospace and composite industries as well as in cable wrap applications, A05SK is seen as offering excellent value and superior performance. Standard width of A05SK is 1000mm, with availability also as slit rolls from 10mm and upwards.

Product Properties	Units	Value	Tolerance	Test Method
Adhesive Type		SILICONE		
Substrate Type		PTFE FILM		
Total Weight of Substrate	g/m2	N/A	+/-16,5	ISO2286-2
% Coating of Substrate		N/A		
Substrate Thickness	micron	125		
Adhesive Thickness	micron	50		ISO2286-3
Total Product Thickness	micron	175		
Adhesive Strength	N/25,4mm	10	Typical	ISO8510-2
		8	Minimum	
Operating Temperature	°Celsius	-73° to +260°
