Product Specification A5108 SW

Taconic's A5108 SW is a PTFE coated glass fibre product with a medium PTFE content and silicone adhesive, with a corrugated yellow backing liner. Mainly used as a high temperature release material in the packaging, plastics and composite industries as well as a liner in mould release and roller covering applications, A5108 SW is seen as offering excellent value and superior performance. Standard width of A5108 SW is 1000mm with slit rolls available from 3mm wide.

Product Properties	Units	Value	Tolerance	Test Method
Adhesive Type		**SILICONE**		
Substrate Type		**E-GLASS**		
Total Weight of Substrate	g/m2	**455**		ISO 2286-2
% Coating of Substrate	%	**55**		
Substrate Thickness	micron	**215**		
Adhesive Thickness	micron	**70**		ISO 2286-3
Total Product Thickness	micron	**285**		
Adhesive Strength	N/25,4mm	**12**	Typical	ISO 8510-2
		10	Minimum	
Operating Temperature	°Celsius	**-73° to +260°**
