Product Specification AA7039

Taconic's AA7039 is a PTFE coated glass fibre product with a high PTFE content and acrylic adhesive, with a smooth blue backing liner. Mainly used as a high temperature release material in the packaging, plastics, composite and automotive industries, where silicone adhesive cannot be used, AA7039 is seen as offering excellent value and superior performance. Standard width of AA7039 is 1000mm with availability also as slit rolls from 10mm and upwards.

Product Properties	Units	Value	Tolerance	Test Method
Adhesive Type		**ACRYLIC**		
Substrate Type		**E-GLASS**		
Total Weight of Substrate	g/m2	**146**		ISO 2286-2
% Coating of Substrate	%	**66**		
Substrate Thickness	micron	**73**		
Adhesive Thickness	micron	**40**		ISO 2286-3
Total Product Thickness	micron	**113**		
Adhesive Strength	N/25,4mm	**10**	Typical	ISO 8510-2
		6	Minimum	
Operating Temperature	°Celsius	**-73° to +180°**
